THE AMERICANS ARE DISGUSTED

Manner in Which the Olympic Games Are Conducted.

NOT GIVEN A SQUARE DEAL

Protest of Athletes From the United States Ignored by the British Olympic Association—Team Marches Off the Grounds.

London, July 18.—A serious controversy has arisen between the American athletes and the British Olympic association. There are also other competitors, including the Canadians and Frenchmen, who are none too satisfied with the way in which the events are being carried.

America's chief cause of complaint is the arbitrary manner in which their protest against "the flagrantly unfair method of conducting the tug of war" was dismissed.

The United Kingdom had three teams entered in the tug of war, made up of the police of the city of London, Liverpool and the metropolitan forces. The drawings brought the American and Liverpool teams into the arena first. The Americans all wore ordinary street shoes, complying with the rule which says: "No competitor shall wear prepared boots or

JOHN FLANAGAN.

shoes with any projecting nails, tips, springs, points, hollows or projections of any kind. No competitor shall make any hole in the ground with his feet or in any other way before the start."

Upon the Liverpool police appearing it was noticed that they were wearing enormous shoes that could not by any stretch of imagination be called ordinary shoes, which had steel rims around the heels.

Matthew P. Halpin immediately entered a protest, but he was told that the shoes were those ordinarily worn by Liverpool policemen. Mr. Halpin finally decided to go on with the first pull in order to show how unfairly the Americans were being treated.

The Americans made no effort and were promptly pulled across the line.

Manager Halpin then announced that the American team would not continue unless the rule was adhered to and his protest being ignored his men marched off the grounds.

Protest Not Allowed.

The facts in the case were reported to the American committee and James E. Sullivan, the American commissioner, proffered a formal protest to the British Olympic association, who turned it over to the Amateur Athletic association. As the officials already had decided in favor of their own team, the protest of course was not allowed.

The members of the American committee, the American athletes and everybody connected with the team are thoroughly disgusted and almost disheartened, but are going to fight it out to the end.

The afternoon opened with the final heat of the ten-mile walk, in which G. E. Larner of England established a new record of 1 hour, 15 minutes, 57 1/5 seconds and the United Kingdom added another point to her wins and nine to her field and track events.

In the semi-final in the fancy diving competition, George W. Gaidig of the Chicago Athletic association won his heat by a handsome margin.

The three-lap team pursuit race went to the British riders, adding still another to the United Kingdom's list of victories.

C. M. Daniels of the New York Athletic club won his heat in the first round of the 100-meter swimming race, his time, 1:05 4/5, being several

seconds below that of the winner of any other heat.

The Americans met disappointment in the 3,200-meter steeplechase, J. D. Lightfoot of the University of Chicago losing his heat to Sewell, United Kingdom.

J. L. Else of the New York Athletic club won his heat in the steeplechase in 11:13 3/5, while Galbraith of Canada and Robertson, Russell and Holladay of the United Kingdom all qualified for the final.

Germany scored her first win, when Biebertstein came in first in the 100-meter back stroke swim.

The wins now stand:

United Kingdom, 22; America, 8; Sweden, 5; Norway, 2; Canada, Germany, France, Belgium and Italy, 1.

DEPUTY WOUNDED.

Dozen Miners Shot in a Fight in Alabama.

Birmingham, Ala., July 18.—R. Gardner, a deputy marshal, was fatally wounded and at least a dozen miners were more or less seriously shot as the result of an attack on a train bearing strike-breakers to take the place of striking union miners at Jefferson, near here. The train was in charge of thirteen deputies and was en route to Adamsville. It is said the union miners attempted to induce the strike-breakers to leave the train and threatened to kill them if they went to work.

Governor Comer has ordered a company of cavalry from Montgomery to the scene and troops already on the ground are under arms and will patrol the district. Everything on the outskirts now is comparatively peaceful. The military have reached Adamsville, the reports from which place have been greatly exaggerated. There was a sharp brush at Adamsville, three strike sympathizers being wounded and thirteen arrested. The soldiers now are encamped there.

Montana Girl Drowned.

Helena, July 18.—A dispatch from Big Fork tells of the capsizing of a small steamboat on Lake Flathead and the drowning of a daughter of M. Hill. The boat turned turtle and all were precipitated into the water, the girl's parents being rescued by persons from the shore who heard their cries. The accident was due to a violent storm which overturned the boat.

Ball Player Honored.

Pittsburg, July 18.—Friday was celebrated here as "Wagner day" in honor of Hans Wagner, the famous shortstop of the Pittsburg team. Director of Public Safety Lang presented Wagner with a gold watch and chain valued at \$700, and the Carnegie league of Elks presented him with a beautiful charm.

Cars Arrive at Boston.

Boston, July 18.—Led by Charles Glidden of Boston, the originator of the Glidden tours, the fifty odd cars competing for the Glidden and Hower trophies in the 1908 tour of the American Automobile association filed into Boston, checked in at the Bay State Auto association clubhouse and ended the longest day's run, 194 miles, of the tour. The cars took ten hours from Albany, N. Y. One car lost its perfect score at Warren.

Negro Murderer Executed.

Moundsville, W. Va., July 18.—Frank Johnson, a negro, was hanged at the West Virginia penitentiary in this place for the murder of Mrs. B. Martin at Gipsy, W. Va., on March 3, last. The execution was without special interest and death came nine minutes after the drop fell. A sensational feature of Johnson's last day was a confession made to the chaplain of the prison, in which he said he had committed five murders during his career.

Senator Clark Stricken.

Chicago, July 18.—Clarence Don Clark, United States senator from Wyoming, was stricken with a nervous collapse and general breakdown at the Auditorium Annex hotel here. So serious was the senator's condition that for a time his life was despaired of. He soon rallied, however, and although still in a precarious condition, the physicians state that they expect him to recover.

New Record for Racers.

Terre Haute, Ind., July 18.—Minor Hair, a green pacer, set a new world's record when he reeled off the first of the two heats of the 2:25 pace in 2:01 1/2 and 2:01, the fastest two heats ever paced in a race. The Eel won the third heat in 2:05 1/2 and forced Minor Hair to finish the race, this being another record of the fastest five heats ever paced in a race. The Eel won the fourth heat in 2:05 and Minor Hair took the fifth in 2:07.

WILL KEEP OUT OF IT

Taft Will Not Enter Senatorial Contest in Ohio.

VORYS ISSUES STATEMENT

Declares That the Republican Presidential Candidate Will Not Interfere With the Election of a Successor to Senator Foraker.

Hot Springs, Va., July 18.—Arthur L. Vorys, manager of the national campaign in Ohio, made a statement in regard to the senatorial situation in his state which he declares ought to be satisfactory to all persons concerned. The purport of the statement is that the manager of the national campaign will not interfere with the election of a United States senator to succeed Senator Foraker.

"I have no candidate for the senatorship," said Mr. Vorys. "This is and has continuously been Secretary Taft's attitude respecting the senatorship. He stands where he always stood, determined not to promote anyone's candidacy or to place obstacles in the way of anyone who wants to be a candidate. The fight for the national ticket in Ohio has been and will continue to be divorced from the senatorial fight, which stands on its own merits.

There is no concerted effort on the part of the Taft men to defeat Foraker. Senator Foraker in a statement made recently in Washington put it right when he said that we should proceed to select a Republican legislature. After that the question of who ought to be senator can be settled. Everybody ought to be content to stand on that proposition, and I endorse it."

Mr. Vorys sees Judge Taft daily and discusses conditions in Ohio. He has not yet decided when he will leave Hot Springs and may remain here for several days.

Judge Taft's mail continues to increase so that it is daily making greater demands upon his time in attending to correspondence that must have his personal attention.

One of the most interesting features in his mail are the many letters he is receiving from Democrats in all parts of the country declaring that they will vote and work for his election to the presidency in opposition to Mr. Bryan. And many of them assert that after his second unsuccessful campaign for the presidency on the Democratic ticket they supposed he would no longer be put forward for that office. Correspondents from Maryland, Kentucky, Tennessee, North Carolina and Georgia declare their belief that the Republican ticket can be elected in those states.

WOULD NOT CUT WAGES.

James J. Hill Favors Increase in Freight Rates.

New York, July 18.—There are just three ways in which the problem now facing the railroads of this country may be solved, namely, increased rates, decreased wages, or increased business, is the opinion of J. T. Harahan, president of the Illinois Central railroad, who arrived here on the steamer Mauretania after a vacation trip to Europe.

James J. Hill, chairman of the Great Northern railroad, is of the opinion that the only solution of the financial problem that confronts the railroads is an increase in freight rates. Mr. Hill is strongly opposed to a cut in wages as a means of increasing the net earnings of railroads.

Mr. Hill, who has just returned from a fishing trip in Canada, made the following statement:

"There is no alternative but to raise rates. The credit of the railroads has been seriously impaired. The way to enhance credit is to increase rates.

"Wages should not be cut. Efficient labor is essential to successful operation. Railroad employees have peculiar responsibilities. They have to meet a hard test. They should get fair recompense. Cut wages 10 per cent and the man who got \$15 last week gets \$13.50 this week. It is the difference between meat and no meat.

"Freight rates in this country are low beyond comparison. Receiving but one-half and even one-third of rates received in European countries, the wages paid railroad employees here average 100 per cent higher than those paid in Europe."

Minnesota Man a Suicide.

St. Paul, July 18.—The body of a man, thought to be James Lindsay of Deer River, Minn., was found hanging to a stonemasons' shed at the foot of Chestnut street. A piece of wire was found hanging from the arm of a derrick that had been broken under the man's weight, and a piece of twine, similar to that from which the body was dangling was also broken and again doubled.

Be sure you see the bargain—it is one of the best of this sale.

"MICHAEL'S"

MAY LIVE IN GERMANY.

Princess de Sagan May Purchase Husband's Ancestral Estates.

Paris, July 18.—The willingness of the Princess de Sagan, formerly the Countess de Castellane, to sell her chateau at Marais has given rise to the report that she is to dispose of the mansion in the Avenue Malakoff in this city and her other property in France, and that with the proceeds she would repurchase the ancestral estates of Prince de Sagan in Germany, where the prince and princess plan to live in the future.

Maitre Caillard, attorney for the princess, said that the report that the princess had placed her country house on the market was incorrect, although she was willing to sell it if she could get an advantageous offer. The report that the princess intends selling her city residence and moving to Germany, however, is without foundation. The Sagans do not propose giving up their residence in France.

Cincinnati, July 18.—H. H. Kessler, former cashier of the Northern Pacific Railroad company at Valley City, N. D., has been arrested here by detectives. He is charged with embezzling \$10,000. He says he will return without requisition papers.

Man Killed in Minnesota Mine.

Duluth, July 18.—Axel Johnson was instantly killed and Carl Arnedek seriously hurt by an explosion of powder at the Burt mine.

North Dakota Educator Resigns.

Grand Forks, N. D., July 18.—The resignation of President Webster Merrifield of the University of North Dakota has been accepted by the board of regents. The resignation will take effect after the commencement exercises of the 1909 class. President Merrifield will have served for a quarter of a century when he retires next June.

Child Dies of Fright.

Carver, Minn., July 18.—Francis Gehl, the eldest son of Mrs. Frances Gehl of Carver, was drowned while wading in a shallow creek near his home. The child was found dead in a hole into which he had stepped. He evidently had died of fright, as he was found to have swallowed no water.

Minnesota Boy Drowned.

Morton, Minn., July 18.—Lester McGee, twelve-year-old son of Mr. and Mrs. H. McGee, was drowned while in bathing.

IS INSTALLED AS PASTOR

Superior Telegram Has Long Report of Installation of Rev. Harry Knowles

PAYS HIM HIGH TRIBUTE

Church is One of the Leading Ones in the Denomination in Wisconsin

THE DISPATCH is in receipt of a clipping from the Superior Telegram of recent date giving an account of the installation of Rev. Harry Knowles as pastor of the East End Presbyterian church of that city. The article is too long to give in its entirety, but the sketch of Mr. Knowles will be of interest:

"Rev. Dr. Harry W. Knowles, the new pastor of the East End Presbyterian church, is a veteran minister of many years standing. He was born in London, England, and came to Canada when 17 years of age. His early education he obtained in the high school at London. At Richmond, Eastern township, Canada, he became a matriculant of St. Francis college, where he prepared for McGill university, Montreal. He was an undergraduate at McGill and took his theological course at the Methodist seminary at Montreal under Dr. G. Douglass. After serving in different pastorates in Canada and Michigan Dr. Knowles came to Minnesota in 1887 and has had pastorates at Minneapolis, Glencoe, Orlia, Brainerd and Duluth. A couple of years ago his health gave out and physicians insisted that he take a complete rest from ministerial labors for at least two years. This rest has brought him returning strength and when the East End Presbyterian church invited him to come and supply the pulpit last March he came. After a couple of months' work his physicians advised him that his health would permit the acceptance of the call to come into the Presbyterian church and undertake the permanent pastorate, which call had been extended unanimously by the church of which he is now the pastor."

The church is one of the leading ones in the state, having a fine pipe organ. The music for the installation was furnished by a chorus of 40 voices accompanied by the organ and an orchestra of ten pieces.

A Grand Family Medicine

"It gives me pleasure to speak a good word for Electric Bitters," writes Mr. Frank Conlan of No. 436 Houston St., New York. "It's a grand family medicine for dyspepsia and liver complications; while for lame back and weak kidneys it cannot be too highly recommended." Electric Bitters regulate the digestive functions, purify the blood, and impart renewed vigor and vitality to the weak and debilitated of both sexes. Sold under guarantee at H. P. TESTIMONIAL

ST. PAUL, MINN.
Gentlemen: I have been a sufferer from rheumatism, and have been bed and gave up all hope of being cured. Your remedy was recommended to me by Chief of Police O'Connor, who said 6088 had cured him. On taking one-fourth of the bottle I was able to get out of bed the first time in thirty days. I have taken my second bottle and now consider myself entirely cured. I write this that others may know of this wonderful remedy. Respectfully yours,

INDIAN WEDDING

Event to be Celebrated in the Indian Village at the Minnesota State Fair

In a letter received by C. N. Cosgrove, secretary of the State Fair, from Major C. B. Jackson, Indian agent at the Sisseton Agency in South Dakota, it was suggested that a marriage in the Indian village, which is to be established on the fair grounds during fair week, might be an interesting feature of the fair.

Maj. Jackson, who is to bring 300 Sioux from his agency, to the fair, writes that there are several couples in the party who have indicated a desire to be married on the fair grounds, and it is quite possible that this feature will be arranged for. The event will receive ample publicity through the newspapers so that all who wish to see one of the brave warriors joined in wedlock to a coy and winsome squaw, will undoubtedly have the opportunity at some time during the fair.

A WOMAN'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home, a good test, no change of climate necessary. This simple diet,丢弃 the blood, loosens the stiffened joints, purifies the blood and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for address, Mrs. M. Summers, Box R, South Bend Ind.

DENIED BY GOMPERS.

Reports That He Had Requested Hearst to Support Bryan.

Erie, Pa., July 18.—President Samuel P. Gompers of the American Federation of Labor said to a representative of the Associated Press that there is absolutely no truth in the published reports that he had wired William R. Hearst, a leader in the Independence league, urging the editor to use his influence to prevent the league from nominating its own candidate for president, and to urge the league to give its support to William J. Bryan because the Denver convention, incorporated in its platform plank urged by organized labor, Mr. Gompers said:

"I read in the newspapers that I am credited with asking Mr. Hearst to support Bryan, and that Mr. Hearst has made reply to me through the press. Now, I did nothing of the kind. I don't know where the message Mr. Hearst claims to have received came from. I did not send it or any other message to Mr. Hearst."

Soda Water Gas to Run an Auto.

John Carroll, an inventor of Philadelphia, appeared recently in an automobile propelled by an engine driven by carbonic acid gas. Carroll drove the car up a hill, stopping several times on the incline and then starting again. When he got to the top he turned around and came down, then went up once more. The engine was crudely rigged up for the experiment, but there was general surprise at the simplicity of construction, and few could credit the inventor's statement that the little engine, not half as big as an ordinary soap box, could develop a hundred horsepower. The machine seemed to have much speed and to be very easy to control. Carbonic acid gas is the substance used to charge soda water.

WOLFHAUPTER GOT SIX MONTHS

For Passing Raised Bill on Little Daughter of H. B. Van Sickie of This City

BROOKS' CASE IS DROPPED

Both Men Were Indicted but was not Disposed to be Severe with Them

Officers Hurley and Winters are again on duty, having returned from Duluth Thursday night. Officer Winters informs THE DISPATCH that both Fred Wolfhaupter and S. Brooks were indicted at Duluth for passing a raised bill on the little daughter of Harry B. Van Sickie, of this city. Wolfhaupter plead guilty and his attorney made a plea for clemency, which resulted in Judge Purdy giving him a term of six months in the reformatory at St. Cloud. The indictment against Brooks was quashed. The fact that both had spent five months in jail was taken into consideration by the court, and this together with the small amount involved evidently was an important factor in securing the leniency of the court.

WILL CONTINUE SPECIAL

The Management of the Minnesota & International Will Continue Sunday Service

The results of the Week End special on the Minnesota & International railroad have been so satisfactory that it has been decided to continue the service during the month of August. This will be good news to the many who have been taking advantage of it to get out of town over Sunday during the past two months.

The Best Pills Ever Sold

"After doctoring 15 years for chronic indigestion, and spending over two hundred dollars, nothing has done me as much good as Dr. King's New Life Pills. I consider them the best pills ever sold," writes B. F. Ayscue, of Ingleside, N. C. Sold under guarantee at H. P. Dunn's drug store. 25¢. tts

FARM, HOME AND GARDEN

Care of Milk

"Say," remarked the milkman as he poured the milk into a stone jar at a Brainerd home a few days ago, "I wish you would put some thing into the paper telling people how to keep milk. They blame the milk man when the fault is that they have not properly cared for the milk and dishes. You have less trouble keeping milk sweet in a cellar than some do in a refrigerator." The writer promised to do as he asked and will throw out a few suggestions.

Few people realize how hard it is to keep the dishes in which milk stands from getting sour. All utensils should first be washed in cold water. Lukewarm or hot water will sour any particles of milk which adhere to the dish. After thoroughly washed, scald the dishes in boiling water, letting them set in a pan or kettle on the stove and boil if possible. Then set in the air; where the direct sunlight will strike them if it can be done.

Throw away the old tin dishes and get a few good crocks or jars. They are not only much easier to keep clean, but will keep the milk much cooler.

Milk kept in a stone jar on the bottom of a cool, well ventilated cellar will keep sweet even longer than in the average refrigerator, especially if the refrigerator is not well ventilated nor kept perfectly sweet.

Milk will sour much more quickly in muggy weather and electricity has much effect on it. A severe thunder storm will sometimes curdle milk which is but a few hours old, and will sour much more quickly if it is disturbed.

Just watch the milk dishes and keep them sweet and keep the milk on the bottom of the cellar, refrigerator or cupboard and see if you do not have less reason to complain of the milkman.

The North Star Juniors were defeated at Vermilion Friday by a score of 8 to 6, in very interesting game.

The South Side team defeated the Y. M. C. A. team in a closely contested game last night. This was the final game of the scheduled series and all that now remains for the North Stars and the N. P. Clerks to decide which team shall rank first and which second.

The North Stars will have no game tomorrow, but it is expected that the Little Falls team will play here Sunday, August 2d, against the North Stars, on the grounds at the cedar yard.

WILL OPEN AUGUST 1ST

Security State Bank Has Rooms Nearly in Readiness and Will Open for Business that Day

The work of the decorators on the interior of the Security bank's new quarters is now nearly complete, and will probably be finished Monday. Mr. Guerin, who is in Dallas, Texas, attending the big Elk gathering, will be home the first of the week and he and Mr. Stork will devote their energies to getting their stationery in place and completing other arrangements for opening the bank for business on August first. The banking rooms are among the handsomest in Minnesota, the fixtures being entirely of marble and mission oak. A handsome new sign has been placed over the front and a new awning will be put in place early next week.

Thinks it Saved His Life

Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery many years, for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung complaints, and would no more be without a bottle than I would be without food." For nearly forty years New Discovery has stood at the head of throat and lung remedies. As a preventive of pneumonia, and healer of weak lungs it has no equal. Sold under guarantee at H. P. Dunn's drug store. 50¢ and \$1.00. Trial bottle free.

CANVASSED THE VOTE

City Fathers Met Last Night and Canvassed the Vote Cast at the Special Election

The city council met Friday night as a canvassing board to canvass the returns of the special city election held Tuesday. The returns were found to be the same as published in the DISPATCH of Wednesday, except that one blank had been accidentally counted as yes in the third ward. The vote by wards was as follows:

	Yes	No
First Ward	96	13
Second Ward	192	26
Third Ward	212	14
Fourth Ward	155	2
Fifth Ward	156	10

KILLS TWO PERSONS.

Jealous Milwaukee Man Then Ends His Own Life.

Milwaukee, July 18.—William Hill, a barber at the Soldiers' home, killed himself after he had killed Mrs. Kimball, said to have been his wife, though known under the name of a former husband, and Joe Bittner, who was instantly killed as he tried to escape from a fusillade of bullets fired at another man. Hill, it is said, was jealous of a man who Mrs. Kimball told him was her son, and Bittner was killed when Hill tried to kill this man, known as Albert Diller. In firing at Diller, Hill probably fatally wounded an unknown Austrian, known as John, who had only been in America four days. The shooting took place in the lowest part of the city and followed a long separation between Mrs. Kimball and Hill. All of the three who were killed died instantly.

Acid Thrown in Woman's Face.

Minneapolis, July 18.—An unknown assailant beat Mrs. Florence Hutchins, a nineteen-year-old widow, into unconsciousness and threw carbolic acid into her eyes and over her face in her room at 2639 Thirteenth avenue south. The woman's eyesight probably will be saved, but her injuries are serious. The assailant is believed to have entered the rooms, which are on the second floor of the house, by a rear door, which was not locked. The police have no clue.

WEEKLY REVIEW OF TRADE

Conservatism Ruling Operations in All Lines at Present.

New York, July 18.—Bradstreet's review of trade says trade and industry are still in a condition of mid-summer quiet, with preparations for fall trade, stimulated by generally good crop progress, going forward with confidence, but with conservatism ruling operations, pending clearer views of ultimate crop and political results. Activity in retail trade is centered in the disposal of surplus stocks of summer goods at concessions, but reduced public buying abil-

ity is reflected in reports from some centers of slow progress in clearing shelves of goods. Jobbing activity is still mainly confined to filling small but frequent repeat orders for summer fabrics, though a few Southern and Northwestern points report enlargement of takings for fall. Wholesale trade is preparing for future requirements, but primary lines of production are running within control, and curtailed outputs are still a feature in most lines of industry. Raw materials for manufacture have a firmer tone, but staple wools are firmest in the market, clothing grades being comparatively neglected. Openings of spring men's wear woolens

are generally at reductions from the preceding season. There is a little more life in building lines, particularly South and West.

AS HIS SISTER DIED.

West Virginia Man Commits Suicide While Despondent.

Pittsburg, July 18.—William Moffit of Sisterville, W. Va., who came here to attend the funeral of his sister, Stella Moffit, who committed suicide last Tuesday, ended his own life in a manner almost identical to that employed by the young woman. Both

took carbolic acid at the home of their parents in Red street, this city. Grief and despondency over his sister's death is believed to have prompted Moffit to self-destruction. He was thirty-nine years old and leaves a wife and five children.

Two Killed by Lightning. Dayton, O., July 18.—Clyde Zar, aged twenty, and Walter Cowitz, aged fourteen, were killed by lightning on a farm near Vandalla. The boys had taken their horses into a barn when lightning struck the building, killing the boys and both the horses.

THE AMERICANS ARE DISGUSTED

Manner in Which the Olympic Games Are Conducted.

NOT GIVEN A SQUARE DEAL

Protest of Athletes From the United States Ignored by the British Olympic Association—Team Marches Off the Grounds.

London, July 18.—A serious controversy has arisen between the American athletes and the British Olympic association. There are also other competitors, including the Canadians and Frenchmen, who are none too satisfied with the way in which the events are being carried.

America's chief cause of complaint is the arbitrary manner in which their protest against "the flagrantly unfair method of conducting the tug of war" was dismissed.

The United Kingdom had three teams entered in the tug of war, made up of the police of the city of London, Liverpool and the metropolitan forces. The drawings brought the American and Liverpool teams into the arena first. The Americans all wore ordinary street shoes, complying with the rule which says: "No competitor shall wear prepared boots or

JOHN FLANAGAN.

shoes with any projecting nails, tips, sprigs, points, hollows or projections of any kind. No competitor shall make any hole in the ground with his feet or in any other way before the start."

Upon the Liverpool police appearing it was noticed that they were wearing enormous shoes that could not by any stretch of imagination be called ordinary shoes, which had steel rims around the heels.

Matthew P. Halpin immediately entered a protest, but he was told that the shoes were those ordinarily worn by Liverpool policemen. Mr. Halpin finally decided to go on with the first pull in order to show how unfairly the Americans were being treated.

The Americans made no effort and were promptly pulled across the line.

Manager Halpin then announced that the American team would not continue unless the rule was adhered to and his protest being ignored his men marched off the grounds.

Protest Not Allowed.

The facts in the case were reported to the American committee and James E. Sullivan, the American commissioner, proffered a formal protest to the British Olympic association, who turned it over to the Amateur Athletic association. As the officials already had decided in favor of their own team, the protest of course was not allowed.

The members of the American committee, the American athletes and everybody connected with the team are thoroughly disgusted and almost disheartened, but are going to fight it out to the end.

The afternoon opened with the final heat of the ten-mile walk, in which G. E. Larmer of England established a new record of 1 hour, 15 minutes, 57 1/5 seconds and the United Kingdom added another point to her wins and nine to her field and track events.

In the semi-final in the fancy diving competition, George W. Gaidzic of the Chicago Athletic association won his heat by a handsome margin.

The three-lap team pursuit race went to the British riders, adding still another to the United Kingdom's list of victories.

C. M. Daniels of the New York Athletic club won his heat in the first round of the 100-meter swimming race, his time, 1:05 4/5, being several

WILL KEEP OUT OF IT

Taft Will Not Enter Senatorial Contest in Ohio.

VORYS ISSUES STATEMENT

Declares That the Republican Presidential Candidate Will Not Interfere With the Election of a Successor to Senator Foraker.

Hot Springs, Va., July 18.—Arthur I. Vorys, manager of the national campaign in Ohio, made a statement in regard to the senatorial situation in his state which he declares ought to be satisfactory to all persons concerned. The purport of the statement is that the manager of the national campaign will not interfere with the election of United States senator to succeed Senator Foraker.

"I have no candidate for the senatorship," said Mr. Vorys. "This is and has continuously been Secretary Taft's attitude respecting the senatorship. He stands where he always stood, determined not to promote anyone's candidacy or to place obstacles in the way of anyone who wants to be a candidate. The fight for the national ticket in Ohio has been and will continue to be divorced from the senatorial fight, which stands on its own merits. There is no concerted effort on the part of the Taft men to defeat Foraker. Senator Foraker in a statement made recently in Washington put it right when he said that we should proceed to select a Republican legislature. After that the question of who ought to be senator can be settled. Everybody ought to be content to stand on that proposition, and I endorse it."

Mr. Vorys sees Judge Taft daily and discusses conditions in Ohio. He has not yet decided when he will leave Hot Springs and may remain here for several days.

Judge Taft's mail continues to increase so that it is daily making greater demands upon his time in attending to correspondence that must have his personal attention.

One of the most interesting features in his mail are the many letters he is receiving from Democrats in all parts of the country declaring that they will vote and work for his election to the presidency in opposition to Mr. Bryan. And many of them assert that after his second unsuccessful campaign for the presidency on the Democratic ticket they supposed he would no longer be put forward for that office. Correspondents from Maryland, Kentucky, Tennessee, North Carolina and Georgia declare their belief that the Republican ticket can be elected in those states.

WOULD NOT CUT WAGES.

James J. Hill Favors Increase in Freight Rates.

New York, July 18.—There are just three ways in which the problem now facing the railways of this country may be solved, namely, increased rates, decreased wages, or increased business, is the opinion of J. T. Harahan, president of the Illinois Central railroad, who arrived here on the steamer *Mauretania* after a vacation trip to Europe.

James J. Hill, chairman of the Great Northern railroad, is of the opinion that the only solution of the financial problem that confronts the railroads is an increase in freight rates. Mr. Hill is strongly opposed to a cut in wages as a means of increasing the net earnings of railroads.

Mr. Hill, who has just returned from a fishing trip in Canada, made the following statement:

"There is no alternative but to raise rates. The credit of the railroads has been seriously impaired. The way to enhance credit is to increase rates.

"Wages should not be cut. Efficient labor is essential to successful operation. Railroad employees have peculiar responsibilities. They have to meet a hard test. They should get fair recompense. Cut wages 10 per cent and the man who got \$15 last week gets \$13.50 this week. It is the difference between meat and no meat.

"Freight rates in this country are low beyond comparison. Receiving but one-half and even one-third of rates received in European countries, the wages paid railroad employees here average 100 per cent higher than those paid in Europe."

New Record for Racers.

Terre Haute, Ind., July 18.—Minor Hair, a green pacer, set a new world's record when he reeled off the first of the two heats of the 2:28 pace in 2:01 1/2 and 2:01, the fastest two heats ever paced in a race. The Els won the third heat in 2:05 1/2 and forced Minor Hair to finish the race, this being another record of the fastest five heats ever paced in a race. The Els won the fourth heat in 2:05 and Minor Hair took the fifth in 2:07.

Minnesota Man a Suicide.

St. Paul, July 18.—The body of a man, thought to be James Lindsay of Deer River, Minn., was found hanging to a stonemasons' shed at the foot of Chestnut street. A piece of wire was found hanging from the arm of a derrick that had been broken under the man's weight, and a piece of twine, similar to that from which the body was dangling was also broken and again doubled.

"MICHAEL'S"

RATES TO BE ADVANCED.

Railroads Decide to Increase Freight Tariffs.

Louisville, Ky., July 18.—That freight rates should be advanced in the territory of the Southeastern Freight association and the Southeastern Mississippi Valley association which takes in all the territory south of the Ohio river and east of the Mississippi river, was decided on at the meeting of the executive officers of all of the railroad systems interested which closed here. The advance, it is said, will be from 4 to 10 cents per 100 pounds, horizontally to correspond with the advance decided on by the Southwestern Freight association recently. The advance was decided on after considerable opposition on the part of certain of the railroads' executives, who maintained that an advance of rates at the present time was impolitic, but this opposition was finally won over by the argument that in order to meet the various increased expenses an increase in rates was absolutely necessary. The clerical forces of the railroads interested are quartered in Louisville temporarily working out the tariffs. It is considered probable that the tariffs will not be in shape for filing before Aug. 1, and in accordance with the requirements of the interstate commerce commission, compelling rates to be filed thirty days prior to becoming effective, the new rate will not be in force until Sept. 1.

Mr. Vorys sees Judge Taft daily and discusses conditions in Ohio. He has not yet decided when he will leave Hot Springs and may remain here for several days.

Judge Taft's mail continues to increase so that it is daily making greater demands upon his time in attending to correspondence that must have his personal attention.

One of the most interesting features in his mail are the many letters he is receiving from Democrats in all parts of the country declaring that they will vote and work for his election to the presidency in opposition to Mr. Bryan. And many of them assert that after his second unsuccessful campaign for the presidency on the Democratic ticket they supposed he would no longer be put forward for that office. Correspondents from Maryland, Kentucky, Tennessee, North Carolina and Georgia declare their belief that the Republican ticket can be elected in those states.

James J. Hill Favors Increase in Freight Rates.

Men of the Battleship Fleet Cheered by Hawaiians.

Honolulu, July 18.—Comprising the greatest military pageant ever witnessed in this city, 3,200 men of the Atlantic battleship fleet paraded arousing enthusiastic cheers from the dense crowds which lined the way along which they passed. The line of march was along the principal streets of the city and every available post of vantage was occupied long before the parade began.

Before the march began the men were drawn up in company front at the starting point and a committee of 100 Hawaiian ladies passed along the ranks, placing about the neck of each white-clad "Jackie" a lei, or chain of close-packed blossoms characteristic of the islands. A formal reception to the officers of the fleet will be tendered by the commander of the naval station, Captain Reese, and Mrs. Reese.

The officers of the fleet gathered at Waikiki beach, where a ball was given by the citizens in their honor. Governor Frear and Rear Admiral Sperry shared in the duty of receiving the many guests. At night a ball under the great banyan trees that mark the site of the ancient fort at Lahaina was given in favor of the officers.

There is no alternative but to raise rates. The credit of the railroads has been seriously impaired. The way to enhance credit is to increase rates.

"Wages should not be cut. Efficient labor is essential to successful operation. Railroad employees have peculiar responsibilities. They have to meet a hard test. They should get fair recompense. Cut wages 10 per cent and the man who got \$15 last week gets \$13.50 this week. It is the difference between meat and no meat.

"Freight rates in this country are low beyond comparison. Receiving but one-half and even one-third of rates received in European countries, the wages paid railroad employees here average 100 per cent higher than those paid in Europe."

Fast Time in Relay Race.

Erie, Pa., July 18.—Louis Collins, a member of the Jamestown team of Y. M. C. A. relay runners, reached here at 2:47 o'clock Saturday morning with the message from Mayor McClellan of New York to Mayor Busse of Chicago. Howard Fassett of the Erie team was on the way to Ashtabula, O., forty-one miles west, within a minute. Collins was 5 hours and 25 minutes ahead of schedule time when he reached Erie. Between here and Jamestown the race record for one mile was broken, one boy making a mile in 5 minutes and 20 seconds.

Reunion of the Elks Ended.

Dallas, Tex., July 18.—The Elks' reunion of 1908 has terminated, the grand lodge adjourning to meet in Los Angeles, July 11, 1909. Fully two-thirds of the visitors have departed.

At the closing session of the grand lodge various minor changes were made in the constitution. The per capita tax was reduced from 25 cents to 20 cents per annum, an official Elk emblem was adopted and the proposition to start a home for the orphans of Elks was defeated.

Incendiary Fires.

Cooperstown, N. D., July 18.—Three elevators of the Monarch, Cargill and Hammer-Halversen-Beier companies have been destroyed by fire. There is no doubt that a firebug is responsible. The loss will total over \$50,000. One fire started at one end of the elevator yards and another at the other end, 700 feet distant. Several times the Great Western elevator caught fire, but the blaze was put out. The electric light plant was in danger, but was saved.

Killed by a Train.

Minneapolis, July 18.—Leo Knezyk, fifteen years old, of Duluth, was fatally injured under the wheels of a freight train he was trying to board in the Great Northern yards. Both legs were crushed by the engine and the boy died a few hours later at the city hospital. The boy and a "pal," Frank Sturmnoski, also of Duluth, had been "bumming" their way about the state on freight trains.

Alleged Embezzler Arrested.

Cincinnati, July 18.—H. H. Kessler, former cashier of the Northern Pacific Railroad company at Valley City, N. D., has been arrested here by detectives. He is charged with embezzling \$10,000. He says he will return without requisition papers.

Man Killed in Minnesota Mine.

Duluth, July 18.—Axel Johnson was instantly killed and Carl Arnedek seriously hurt by an explosion of powder at the Burt mine.

North Dakota Educator Resigns.

Grand Forks, N. D., July 18.—The resignation of President Webster Merrifield of the University of North Dakota has been accepted by the board of regents. The resignation will take effect after the commencement exercises of the 1909 class. President Merrifield will have served for a quarter of a century when he retires next June.

Child Dies of Fright.

Carver, Minn., July 18.—Francis Gehl, the eldest son of Mrs. Frances Gehl of Carver, was drowned while wading in a shallow creek near his home. The child was found dead in a hole into which he had stepped. He evidently had died of fright, as he was found to have swallowed no water.

Minnesota Boy Drowned.

Morton, Minn., July 18.—Lester McGee, twelve-year-old son of Mr. and Mrs. H. McGee, was drowned while in bathing.

MAY LIVE IN GERMANY.

Princess de Sagan May Purchase Husband's Ancestral Estates.

Paris, July 18.—The willingness of the Princess de Sagan, formerly the Countess de Castellane, to sell her chateau at Marais has given rise to the report that she is to dispose of the mansion in the Avenue Malakoff in this city and her other property in France, and that with the proceeds she would repurchase the ancestral estates of Prince de Sagan in Germany, where the prince and princess plan to live in the future.

Maitre Cauchard, attorney for the princess, said that the report that the princess had placed her country house on the market was incorrect, although she was willing to sell it if she could get an advantageous offer. The report that the princess intends selling her city residence and moving to Germany, however, is without foundation. The Sagens do not propose giving up their residence in France.

IS INSTALLED AS PASTOR

Superior Telegram Has Long Report of Installation of Rev. Harry Knowles

PAYS HIM HIGH TRIBUTE Church is One of the Leading Ones in the Denomination in Wisconsin

THE DISPATCH is in receipt of a clipping from the Superior Telegram of recent date giving an account of the installation of Rev. Harry Knowles as pastor of the East End Presbyterian church of that city. The article is too long to give in its entirety, but the sketch of Mr. Knowles will be of interest:

"Rev. Dr. Harry W. Knowles, the new pastor of the East End Presbyterian church, is a veteran minister of many years standing. He was born in London, England, and came to Canada when 17 years of age. His early education he obtained in the high school at London. At Richmond, Eastern township, Canada, he became a matriculant of St. Francis college, where he prepared for McGill university, Montreal. He was an undergraduate at McGill and took his theological course at the Methodist seminary at Montreal under Dr. G. Douglass. After serving in different pastorates in Canada and Michigan Dr. Knowles came to Minnesota in 1887 and has had pastorates at Minneapolis, Glencoe, Ollivie, Brainerd and Duluth. A couple of years ago his health gave out and physicians insisted that he take a complete rest from ministerial labors for at least two years. This rest has brought him returning strength and when the East End Presbyterian church invited him to come and supply the pulpit last March he came. After a couple of months' work his physicians advised him that his health would permit the acceptance of the call to come into the Presbyterian church and undertake the permanent pastorate, which call had been extended unanimously by the church of which he is now the pastor."

The church is one of the leading ones in the state, having a fine pipe organ. The music for the installation was furnished by a chorus of 40 voices accompanied by the organ and an orchestra of ten pieces.

A Grand Family Medicine

"It gives me pleasure to speak a good word for Eclectric Bitters," writes Mr. Frank Conlan of No. 430, Houston St., New York. INDIAN WEDDING

Event to be Celebrated in the Indian Village at the Minnesota State Fair

In a letter received by C. N. Cosgrove, secretary of the State Fair, from Major C. B. Jackson, Indian agent at the Sisseton Agency in South Dakota, it was suggested that a marriage in the Indian village, which is to be established on the fair grounds during fair week, might be an interesting feature of the fair.

Maj. Jackson, who is to bring 300 Sioux from his agency, to the fair, writes that there are several couples in the party who have indicated a desire to be married on the fair grounds, and it is quite possible that this feature will be arranged for. The event will receive ample publicity through the newspapers so that all who wish to see one of the brave warriors joined in wedlock to a coy and winsome squaw, will undoubtedly have the opportunity at some time during the fair.

WOLFHAUPT GOT SIX MONTHS

For Passing Raised Bill on Little Daughter of H. B. Van Sickie of This City

BROOKS' CASE IS DROPPED

Both Men Were Indicted but was not Disposed to be Severe with Them

Officers Hurley and Winters are again on duty, having returned from Duluth Thursday night. Officer Winters informs THE DISPATCH that both Fred Wolfhaupter and S. Brooks were indicted at Duluth for passing a raised bill on the little daughter of Harry B. Van Sickie, of this city. Wolfhaupter plead guilty and his attorney made a plea for clemency, which resulted in Judge Purdy giving him a term of six months in the reformatory at St. Cloud. The indictment against Brooks was quashed. The fact that both had spent five months in jail was taken into consideration by the court, and this together with the small amount involved evidently was an important factor in securing the leniency of the court.

WILL CONTINUE SPECIAL

The Management of the Minnesota & International Will Continue Sunday Service

The results of the Week end special on the Minnesota & International railroad have been so satisfactory that it has been decided to continue the service during the month of August. This will be good news to the many who have been taking advantage of it to get out of town over Sunday during the past two months.

FARM, HOME AND GARDEN

Care of Milk

"Say," remarked the milkman as he poured the milk into a stone jar at a Brainerd home a few days ago, "I wish you would put some thing into the paper telling people how to keep milk. They blame the milk man when the fault is that they have not properly cared for the milk and dishes. You have less trouble keeping milk sweet in a cellar than some do in a refrigerator." The writer promised to do as he asked and will throw out a few suggestions.

Few people realize how hard it is to keep the dishes in which milk stands from getting sour. All utensils should first be washed in cold water. Lukewarm or hot water will sour any particles of milk which adhere to the dish. After thoroughly washed, scald the dishes in boiling water, letting them set in a pan or kettle on the stove and boil if possible. Then set in the air; where the direct sunlight will strike them if it can be done.

Throw away the old tin dishes and get a few good crocks or jars. They are not only much easier to keep clean, but will keep the milk much cooler. Milk kept in a stone jar on the bottom of a cool, well ventilated cellar will keep sweet even longer than in the average refrigerator, especially if the refrigerator is not well ventilated nor kept perfectly sweet.

Milk will sour much more quickly in muggy weather and electricity has much effect on it. A severe thunder storm will sometimes curdle milk which is but a few hours old, and will sour much more quickly if it is disturbed.

Just watch the milk dishes and keep them sweet and keep the milk on the bottom of the cellar, refrigerator or cupboard and see if you do not have less reason to complain of the milkman.

BASE BALL NOTES

Team	Played	Won	Lost	Pctg
North Star Jr.	10	7	3	700
N. P. Office	10	7	3	700
Y. M. C. A.	10	5	5	500

South Side	10	4	6	400
Crescents	10	2	8	200

The North Star Juniors were defeated at Verndale Friday by a score of 8 to 6, in very interesting game.

The South Side team defeated the Y. M. C. A. team in a closely contested game last night. This was the final game of the scheduled series and all that now remains for the North Stars and the N. P. Clerks to decide which team shall rank first and which second.

The North Stars will have no game tomorrow, but it is expected that the Little Falls team will play here Sunday, August 2d, against the North Stars, on the grounds at the cedar yard.

WILL OPEN AUGUST 1ST

Security State Bank Has Rooms Nearly in Readiness and Will Open for Business that Day

The work of the decorators on the interior of the Security bank's new quarters is now nearly complete, and will probably be finished Monday. Mr. Guerin, who is in Dallas, Texas, attending the big Elk gathering, will be home the first of the week and he and Mr. Stork will devote their energies to getting their stationery in place and completing other arrangements for opening the bank for business on August first. The banking rooms are among the handsomest in Minnesota, the fixtures being entirely of marble and mission oak. A handsome new sign has been placed over the front and new awning will be put in place early next week.

Thinks it Saved His Life

Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery many years, for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung complaints, and would no more be without a bottle than I would be without food." For nearly forty years New Discovery has stood at the head of throat and lung remedies. As a preventive of pneumonia, and healer of weak lungs it has no equal. Sold under guarantee at H. P. Dunn's Drug store. 50c and \$1.00. Trial bottle free.

CANVASSED THE VOTE

City Fathers Met Last Night and Canvassed the Vote Cast at the Special Election

The city council met Friday night as a canvassing board to canvass the returns of the special city election held Tuesday. The returns were found to be the same as published in the DISPATCH of Wednesday, except that one blank had been accidentally counted as yes in the third ward. The vote by wards was as follows:

Yes	No
First Ward.....	96
Second Ward.....	192
Third Ward.....	212
Fourth Ward.....	155
Fifth Ward.....	156
Total 811	65

KILLS TWO PERSONS.

Jealous Milwaukee Man Then Ends His Own Life.

Milwaukee, July 18.—William Hill, a barber at the Soldiers' home, killed himself after he had killed Mrs. Kimbell, said to have been his wife, though known under the name of a former husband, and Joe Bittner, who was instantly killed as he tried to escape from a fusillade of bullets fired at another man. Hill, it is said, was jealous of a man who Mrs. Kimbell told him was her son, and Bittner was killed when Hill tried to kill this man, known as Albert Diller. In firing at Diller, Hill probably fatally wounded an unknown Austrian, known as John, who had only been in America four days. The shooting took place in the lowest part of the city and followed a long separation between Mrs. Kimbell and Hill. All of the three who were killed died instantly.

IT'S YOUR KIDNEYS

Don't Mistake the Cause of Your Troubles. A Brainerd Citizen Shows How to Cure Them

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Brainerd people testify to permanent cures.

Mrs. S. Brain, of 601 S. 10th St., Brainerd, Minn., says: "I could not do otherwise than endorse Doan's Kidney Pills and time after time I have recommended them to persons suffering from kidney trouble. When I first procured Doan's Kidney Pills at H. P. Dunn's drug store I was suffering from severe symptoms of kidney complaint. There was a constant dull aching in my back and kidney secretions were irregular and unnatural in appearance. From both these causes my rest was broken at night and in the morning I was usually languid and tired. Doan's Kidney Pills made a great change in my condition and after continuing their use I was so vastly improved that I felt warranted in recommending them through the local papers. I also found that Doan's Ointment is unequalled foritching and bleeding hemorrhoids."

WEEKLY REVIEW OF TRADE

Conservatism Ruling Operations in All Lines at Present.

New York, July 18.—Bradstreet's review of trade says trade and industry are still in a condition of mid-summer quiet, with preparations for fall trade, stimulated by generally good crop progress, going forward with confidence, but with conservatism ruling operations, pending clearances of ultimate crop and political results. Activity in retail trade is centered in the disposal of surplus stocks of summer goods at concessions, but reduced public buying ability is reflected in reports from some centers of slow progress in clearing shelves of goods. Jobbing activity is still mainly confined to filling small but frequent repeat orders for summer fabrics, though a few Southern and Northwestern points report enlargement of takings for fall. Wholesale trade is preparing for future requirements, but primary lines of production are running within control, and curtailed outputs are still a feature in most lines of industry. Raw materials for manufacture have a firmer tone, but staple wools are firmest in the market, clothing goods being comparatively neglected. Openings of spring men's wear woolens

are generally at reductions from the preceding season. There is a little more life in building lines, particularly South and West.

AS HIS SISTER DIED.

West Virginia Man Commits Suicide While Despondent.

Pittsburg, July 18.—William Moffit of Sisterville, W. Va., who came here to attend the funeral of his sister, Stella Moffit, who committed suicide last Tuesday, ended his own life in a manner almost identical to that employed by the young woman. Both

took carbolic acid at the home of their parents in Red street, this city. Grief and despondency over his sister's death is believed to have prompted Moffit to self-destruction. He was thirty-nine years old and leaves a wife and five children.

Two Killed by Lightning.

Dayton, O., July 18.—Clyde Zar, aged twenty, and Walter Cowitz, aged fourteen, were killed by lightning on a farm near Vandalia. The boys had taken their horses into a barn when lightning struck the building, killing the boys and both the horses.

Acid Thrown in Woman's Face.

Minneapolis, July 18.—An unknown assailant beat Mrs. Florence Hutchins, a nineteen-year-old widow, into unconsciousness and threw carbolic acid into her eyes and over her face in her room at 2639 Thirteenth avenue south. The woman's eyesight probably will be saved, but her injuries are serious. The assailant is believed to have entered the rooms, which are on the second floor of the house, by a rear door, which was not locked. The police have no clue.

Sentenced to Be Hanged.

Chicago, July 18.—Andrew Williams, a negro, was found guilty of murder and sentenced to be hanged by a jury in the criminal court here. Williams killed his wife on March 10. He also severely wounded his two-year-old baby and his father-in-law.
